## PATH Services

Street Outreach | Interim & Transitional Housing | The PATH Mall | Rapid Re-housing

### The PATH Mall

Traveling all over the city to reach various supportive services can be time-consuming and frustrating. The PATH Mall aims to address this common issue by bringing together more than a dozen homeless service providers in a single location. People experiencing homelessness can access housing assistance, health services, employment counseling, and more, all under one roof.

Offers services to individuals, Veterans, and families seeking permanent housing through PATH.

### The PATH Mall

The shopping mall is a staple of our modern culture, providing every store we could want in one convenient location. Rather than trekking back and forth to multiple stores to check the items off a shopping list, we can make a single trip to the local mall and find virtually anything we need.

People experiencing homelessness typically do not have a reliable mode of transportation, or disposable income to drop on travel expenses, so trekking across the city and back in search of supportive services can feel like an almost impossible task. So, instead of asking people to travel to all of the different services they need, PATH has brought all of these services to one central location.

Now, people who are homeless can make a single trip to the PATH Mall and access more than a dozen services designed to help them get back on their feet.

Nationally recognized as an innovative and effective model for serving the homeless population in our country, last year the PATHMall helped 4,500 individuals access the services they need and break the cycle of homelessness in their lives. The services we provide include:

Health Center  
(JWCH Institute)

Mental Health Care  
(Gateways Hospital)

Job Center  
(PATHFinders)

Personal Care Center  
(Salon)

Benefits Assistance

Veterans Services
